

THE MAIN CONCEPT OF TOPTUL PRODUCTION CONTROL

TOPTUL® professional tools are

manufactured by TOPTUL production facilities and supply chains based on TOPTUL Design & Quality Specifications under ISO-9001 Edition Quality Management. To ensure a high accuracy in measurements and dimensions, TOPTUL tools are produced according to international standards as DIN, ANSI norms were ever applicable.

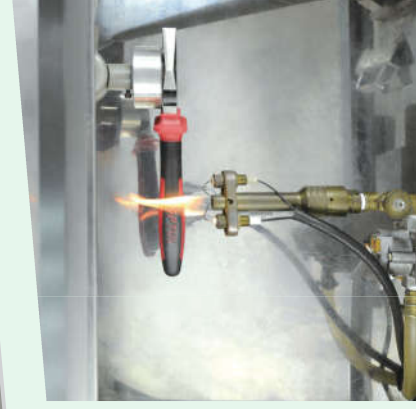

DIN **ANSI** **ISO9001**

A STRICT QUALITY CONTROL

TOPTUL® Q.C. Department and R&D Engineers constantly review and improve the product testing & quality control procedures and standards based on either positive or negative feedbacks from global end-users.

▶ 10000V DIELECTRIC TEST

▶ FLAME RETARDANT TEST

▶ IMPACT TEST
